EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frederick Bailey on 12/19/2006.

The application has been amended as follows:

- Claims have been amended as shown in Attachment A.

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1,

The prior art of record does not teach or fairly suggest a method of extracting CPS packet from one or more AAL2 cells, generating an AAL5 cell by adding an ATM header to data subset included in CPS packet, and storing intermediate CRC and length values of data subset included in AAL5 cell generated in a memory without storing the data subset of the generated cell.

Regarding claim 11,

The prior art of record does not teach or fairly suggest a method of generating a CPS packet by adding a packet header to payload stored in memory if AAL5 cell received is not final AAL5 cell, emptying memory and storing next payload in memory,

recording the length of payload included in generated packet, generating one or more AAL2 cells corresponding to CPS packet generated, repeating until next AAL5 cell received is final cell that includes a final payload, and determining a final length by subtracting each length recorded from a total length of user data set, the total length being included in final AAL5 cell, wherein the final length comprises a length of the unsent data of the original user data set.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Sol whose telephone number is (571) 272-5949. The examiner can normally be reached on M-F 7:30am - 4pm.
